

DATA CENTER & FASTTRAXSM

POWERED BY AFF

The more valuable your cargo and the more crucial your transit time, the more important it is to **know exactly where it is and when it will arrive**. That's the whole idea behind the Data Center and FastTraxSM at American Fast Freight and AFF Hawaiian Ocean Transport. Once you have set up an account, you can log on at any time to check on your shipments.

FastTraxSM is an integrated suite of technology-based resources established to provide the customer with **real-time shipment tracking** and document optimization. Information obtained from this system is made available to the customer through various means, including our web-based Data Center and automated faxes and e-mails. Furthermore, FastTraxSM allows American Fast Freight (AFF) to leverage this system to maintain and improve our outbound load planning and delivery programs.

The versatile searching capability of our Data Center means you can get the exact information you need, when you need it. You can search by AFF barcode, a pro number, purchase order shipper number, shipment date, or by description of goods shipped. And you can combine these criteria for more powerful searches.

Once you have entered your search criteria, simply click the "Search" button and in seconds our freight tracing system presents you with records of all the shipments that match your search terms. Click on the one you want for complete shipment details. Our Data Center and FastTraxSM programs are two more ways American Fast Freight and AFF Hawaiian Ocean Transport are **putting the needs of our customers first**.

FastTrax
Powered by **AFF**

The Data Center's versatile search options make it easy and fast to locate your shipments. You can search by any or all of the criteria below.

AFF's Data Center gives you detailed information about your shipments.

It's just as easy to sign up for American Fast Freight's Data Center as it is to use it. Go to our website at www.americanfast.com and click on the "Data Center" link. Then complete the brief application. You'll be contacted with your username and password within 48 hours.
