

AFF DISTRIBUTION SERVICES

SERVING ALASKA

AFF Distribution Services offers Alaskan businesses and suppliers in the Lower 48 the convenience of local warehousing and **intra-Alaska delivery**. Our climate-controlled, secure facility in Anchorage assures customers of safe and damage-free storage. Whether it's for a few months, for a one-time distribution, or for the long term, AFF Distribution Services can handle your needs.

We also offer **complete cold storage service**. We have a 16,000-square-foot cold storage facility in Anchorage. It can accommodate any refrigerated product with temperatures from chill to freeze to "deep freeze."

As **part of the American Fast Freight group**, we can also arrange for the competitive movement of your cargo to Alaska from the Lower 48 in full trailers and containers. This will greatly reduce the unit cost associated with moving the same amount of cargo over time as separate smaller shipments. We can move cargo from any city in the Lower 48 to Anchorage.

AFF Distribution Services can provide not only the warehouse space, but also all the services associated with third-party distribution.

We can enter your products into our inventory management software, process individual orders, pick and pack the orders, and deliver them to your customers for you. For maximum speed and accuracy, you can transmit your orders to us electronically. You will get a single, detailed invoice for all services provided. Plus, we can tailor various reports to meet your specific needs.

*OUR SERVICE CAN REDUCE YOUR OVERALL TRANSPORTATION COSTS
COMPARED TO SHIPPING FREQUENT ORDERS DIRECTLY TO CUSTOMERS.*

AFF Distribution Services provides an excellent alternative for companies with frequent orders in Alaska, but whose volume doesn't justify having their own distribution center. It's the perfect solution for manufacturers and wholesale distributors with a small number of SKUs, but a large number of orders to process weekly or monthly.

SERVICES INCLUDE

- Short- and long-term warehousing
- Third-party distribution
- Order processing and inventory reports
- Intra-Alaska delivery of your product
- Cold storage, chill to freeze
- Pick and pack individual orders
- Through bill or lading and single invoice
- Bypass mail service to areas not accessible by road or sea

ADDITIONAL SERVICES

AFF Distribution Services is a division of **American Fast Freight, Inc.** They provide a wide range of ocean transportation services to and from Alaska, and through their affiliates to and from Hawaii, Guam and Puerto Rico. American Fast Freight also handles air freight shipments and provides an expedited over-the-road service to Alaska from its Fife, Wash., container freight station. It's called **Alcan Highway Express** and it's faster than ocean freight and less expensive than air freight -- and perfect for time-sensitive and perishable shipments.
